Support/object: (please provide your statement below)

yes.

Reason:

We need Employment in our area as 3 out of 4 of our children and others have had to leave home to seek Employment elsewhere. We have had new homes built in Blayney & surrounding area, but where are the jobs? We only have to look on the internet or our Real Estate windows to see how many homes are for sale. I understand there is always issues with new projects that may upset some residence but hoping the bigger picture outweighs the concerns.

~~I have/have not made any political donations in the last two years. (If yes please disclose)~~
