McPhillamys Gold Project  
Application number SSD-9505

Support/object: (please provide your statement below)

Support

Reason:

I am a geologist completing exploration in NSW and a mining operation is the final product of successful exploration. IF mining projects with such benign environmental footprints & impacts as this project are rejected, the entire state of NSW will suffer with a lack of confidence in the industry & exploration financing.

I have/have not made any political donations in the last two years. (If yes please disclose)

I have not.
