

DEPARTMENT OF PLANNING

MAJOR PROJECTS

RE COFFS HARBOUR CITY COUNCIL

proposed CULTURAL AND CIVIC SPACE PROJECT

I wish to register my strong objections to this proposal.

My objections are based on :-

- the plan only replaces or duplicates what we already have.

- what we need, a Town Hall like structure, will not be provided.

- for over thirty years, since the demolition of our structurally sound, attractive and user friendly Town Hall, we have not had an appropriate venue for concerts,isteddfods, dances or presentations, unless registered club premises are used.

- if senior council staff feel they must have new office space the existing council administration building was designed and built so that a third floor could be added if needed in the future.

In short I feel that Coffs Harbour Council's proposal is a total waste, even misappropriation of rate payer money.
