Dear Director,

**State Significant Development Application Number SSD-10300.
Coffs Harbour Cultural and Civic Space.**

I have been a resident of the Coffs Harbour LGA for approximately 20 years and following considerable discussion with my many friends and acquaintances and considering the implications of the petition lodged for debate at State Government and signed by 15,000 residents (approximately one third of the voters in this Council area), I am vehemently opposed to the proposal. I therefore strongly object to this proposal for the following reasons:

- no firm costings for the proposal have been provided at any stage of the process
- insufficient parking spaces have been included in the development application
- public consultation has been totally inadequate – Council has a history of poor community engagement
- half of the Councillors voted against the proposal at which point the Mayor used her casting vote to pass it – an abuse of process

I request that a public hearing be held regarding this proposed development.

In the past two years I have not made any reportable political donations.

Yours sincerely,

Ian Greaves
