I Maureen Klinberg do declare that I have not made any political donations in the past 5 years.
I lived on this prime farming land close to the designated solar farm and I object to Jindera Solar Farm SSD-9549 for the following reasons

- Loss of good productive land
- Loss of flora and fauna particularly the squirrel gliders
- The loss of water supply due to the dams being filled in
- The risk of fire to surrounding farms because of the inability of firefighters entering the solar farm.

I'm happy to be contacted about this project.
