Re: BOTANY RAIL DUPLICATION

In close locations to residential housing such as the Banksia Street section, would the DPIE take all noise & vibration reduction options into account?

Item 1. Sound Barriers such as earth mounds or other good quality materials.

Item 2. Plastic Railway sleepers. These have a life of 50 years, made from recycled polystyrene & plastic agriculture waste. They are half the price of wooden sleepers & quieter than cement & don't crack. The Company that manufacture & supply these is DURATRACK in Victoria, at 316 Colliard Ave, Mildura. VIC. 3500. Phone. 1300 729 253.

Yours faithfully

m/s Sylvia White
