Dear Mr Roppolo

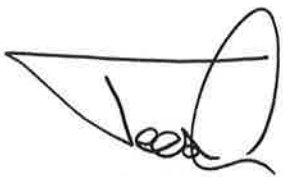

**Re: Sydney Fish Market Concept and Stage 1 (SSD 8924) and Stage 2 (SSD 8925) –
Environmental Impact Statements**

Thank you for the opportunity to comment on the Sydney Fish Market Concept and Stage 1 (SSD 8924) and Stage 2 (SSD 8925) Environmental Impact Statements. Sydney Local Health District Public Health Unit has reviewed the Environmental Impact Statement, focusing on issues that may impact human health.

I have attached detailed comments prepared by our Public Health Unit. The EIS identifies concerns about dust as well as potential exceedances of noise levels during the construction phase. There are also potential health concerns associated with noise and odour during the operational phase of the project. We recommend implementing all reasonable and feasible best practice mitigation measures to minimise any adverse impacts on the community during the construction and operational phase.

I trust this information is of assistance. Should you require any further information please contact Dr Leena Gupta, Clinical Director, Public Health Unit, Sydney Local Health District, on telephone (02) 9515 9420.

Yours sincerely

Dr Teresa Anderson AM
Chief Executive
