Concept Proposal 1 Works [SSD-8924] and Stage 2 Works [SSD-8925}] The New Sydney Fish Market.

I hereby submit a statement that I object to the proposal and have enclosed my reasons below.

As you are aware that Wentworth Park was a dump and if you look at the South, East Corner of Blackwattle Bay and next to the present Fish Market you can still see exposed parts of the dump which seeps into the Bay.

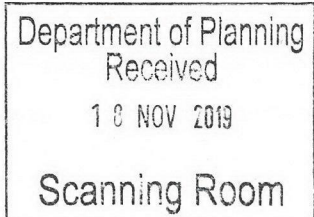

This area has been exposed to the public for the last 30 years . It surely must be a health hazard which has not been addressed by Council , the State Government and the Managers of the Fish Market.

Also if you look at the Bay at Low tide you will see that the whole Southern section of the Bay is **Contaminated**.

I was cleaning the Bay last week and got stuck in the slug . There was a horrible smell when I retrieved my feet and I was covered in a horrible blue oily substance.

The cleaning off the Bay has not been attended too .

Plus the smell from the markets is revolting .

Mr. Timothy Robert Innis [BOB]

The Management of the Fish Market has put the Public of NSW ,Workers and Tourists to the Markets exposed to an unhealthy environment and has done nothing to improve it.

Every time I clean the harbour of rubbish I find plastic bags from the Fish Markets and pieces of foam from the boxes they use.

The Harbour is polluted from the Fish Market as rubbish is blown into the Harbour. ie Straws ,bottles, plates, plastic forks spoons and knives,cardboard boxes ,cleaning agents etc

If you wish to build a new fish market then I suggest you do not use and old dump that is infecting the residents with disease, rats, rubbish smell of rotten fish and an eye soar to the public.

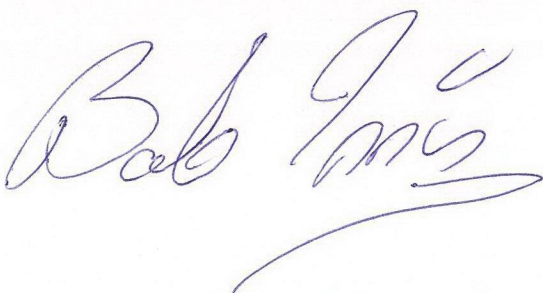

These problems will be the same in the new market as the Managers of the present Fish Market have made no effect to keep the markets in a fit state for the public.

I suggest you look at White Bay and clean up the whole Harbour.

I am happy to discus the pollution in the Harbour with you and show you the dump,and take you on an exercise of cleaning up the Harbour

I declare that I have not made reportable political donations made in the previous two years.

Regards Mr T R Innis [Bob]
