Dear Minister,

Re: Sancrox Quarry Expansion Project

SSD 9946

I am the owner of Lots 54, 117 and 118 in Riverpark Sancrox Estate.

I am writing to express my strong objection to the proposed Sancrox Quarry Expansion Project SSD 9946 which is currently on exhibition.

The proposed Quarry expansion will seriously adversely affect the environment. The Environmental Impact Statement refers to the project as an "expansion". In fact it is a "new quarry" adjacent to the existing quarry and is proposed to be three times the size of the existing quarry. This new quarry will result in irreparable damage to the habitat of koalas in the area, an obstruction to the proposed high speed rail corridor and the destruction of the quality of life for many current and likely residents of the area.

I have invested a significant amount of money and time toward the redevelopment of Riverpark Sancrox. Once finished and sold, it could provide quality accommodation for many people. That will not be the case if the proposed "giant" quarry proceeds. Those who propose the new quarry could easily relocate it to an area some 20kms away where the environment and other damage would be minimal by comparison.

I look forward to hearing of your opposition to this project.

Yours Sincerely,

Diane Lesley Faulkner
