Re: Public Submission for SSD – 7293, Sancrox Quarry Expansion Project

U h	Jse this Tick-Box Form or make your submission online by midnight Wednesd ttps://www.planningportal.nsw.gov.au/major-projects/project/9946	day 11 December 2019 at
D	Dear Sir/Madam, wish to submit my objection to the above development application. My Name: CHRIS TYNDALL	Department of Planning Received 1.6 DEC 2019
	TY Address: PORT MARQUARIE NOSIN	scanning Room , 2444
N	Ty Email:	Department of Planning Received 16 DEC 2019 Scanning Room Me grounds listed in ticked boxes below: Scanning Room Me grounds listed in ticked boxes below: Scanning Room Scanning Room Me grounds listed in ticked boxes below: Scanning Room Me grounds listed in ticked boxes below: Scanning Room Me grounds listed in ticked boxes below: Scanning Room Scanni
M	ly objection to the proposal is on the grounds listed in tic	ked boxes below:
V	The Port Macquarie region is expanding rapidly. This development is in the 6km west of Port Macquarie, which is undergoing significant residential dedirectly affected by the increased environmental impact of this quarry expanding the control of t	velopment that will be
	The Sancrox area has already had a substantial increase in noise (24/7), due highway to a motorway. Despite noise mitigation measures, the rural ambie any extra noise generation, especially at night, will only make it worse.	to the upgrading of the nce is already reduced and
	The proposed 'quarry expansion' is more than that! It also includes two new concrete batching and asphalt production. There are already other concrete a region that have the capacity to service the demand.	zadditional operations, and asphalt plants in the
V	The noise impact of a 24 hour, 7 days a week operation is particularly concerespite from constant noisy plant and equipment. Daytime operation excludithat should be allowed in a community precinct. The processes carried out dand can be easily shutdown/restarted.	ng Sundays is the maximum
0	The project includes "clearing 43.1 hectares of native forest vegetation, 0.55 the threatened ecological community Subtropical coastal floodplain forest (Nireversible environmental impact. (Ref: DA, Annex C)	ha of which is identified as NR117)" with serious and
V	During November 2019 a State of Emergency was declared in NSW due to the Hundreds of koalas may have been killed. Injured and now homeless koalas be moved onto, the proposed development site.	he catastrophic bushfires. may migrate to, or have to
V	The Greater Sancrox Area Structure Plan (Port Macquarie Hastings Council, be cleared as medium to high activity koala habitat. More recently the Draft Management 2018 (CKPOM) produced by PMHC identifies the area as core also destroys an identified critical link needed to maintain vegetation connects.	Coastal Koala Plan of koala habitat. The clearing

Insufficient field work was conducted in 2015, four years ago. A major flaw of the EIS is that it fails to record koalas at six locations and the presence of habitat critical to the endangered Swift Parrot. (Refs: Office of Environment and Heritage Records, 2008 -2013; Ref. DA Annex C)		
The <u>environmental impact is serious and irreversible</u> . The proposed development site supports unique biodiversity with a total of 27 threatened species identified so far, including 17 birds and 9 mammals, including 7 vulnerable bats. The native vegetation on site should be retained to combat Australia's abysmal record of extinction of plants and animals in Australia. (Ref.		
https://www.environment.nsw.gov.au/topics/animals-and-plants/native-vegetation/why-is-native-vegetation-important)		
Proposed "Ecosystem credits" system of payment by the developer to offset destruction of threatened species does not compensate for the <u>serious and irreversible impact</u> on the natural environment.		
Native vegetation in NSW stores a significant amount of carbon. This deforestation and forest degradation will contribute to global greenhouse gas emissions and fewer trees in a region can contribute to drought by reducing the amount of local rainfall.		
The natural water on the site, currently supporting native flora and fauna, will be diverted to industrial use and North and west alluvial flood plains of the Hastings River and Haydons Creek will be impacted		
The company operating this site has a poor track record of environmental compliance and were fined \$15,000 by the Environmental Protection Authority in 2016 for breaches of their water management operational obligations. (Ref: EPA 24.03.2016).		
The proposed works impact Aboriginal heritage sites, including a Scar Tree and ceremonial site of "hig cultural significance." (Ref: Annex D, Heritage Report)		
Increased 24/7 heavy vehicle movements on the light duty local roads will compromise road safety and accelerate pavement failure.		
I DO / AGREE to the Department publishing my submission on its website in accordance with The Department of Planning, Industry and Environment Privacy Policy.		
I have not made any reportable political donations in the last two years.		
Signed:		
Further comments may be attached.		
Your Submission will not be Accepted by the Department after Midnight Wed 11 Dec 2019. Please allow time of 5 days for Australia Post deliveries:
