---

Dear Ms Anderson,

My wife & I are joint owners of Lot 25 in Le Clos Sancrox.

We wish to register our objection to the application referenced above by Hanson Construction Material Pty Ltd described as a quarry expansion.

Approval by the relevant authorities will result in a legacy for years to come as regards the position of an expanded or new quarry within an area of importance for the future development of Port Macquarie & its environs, ie to the west. Port Macquarie is the fastest growth area in the State.

There should not be constraints such as a quarry on its future development options! The position of the quarry, especially if expanded will pose such constraint. Anyone looking to the future will recognise the limitations on future worthwhile development by a short term decision made now.

We urge you to reject the Hanson Application. If approved it will be the source of ongoing compliance/loss of amenity issues for many years to come.

Regards,

**Nick Prentice**
