Subject: Objection to proposed time extension for two Marulan Gas Fired Power Stations +

To: Director - Resource Assessments
Department of Planning, Industry and Environments
Sydney

Dear Sir,

I DO NOT support the proposed time extension for the two Marulan Gas Fired Power Stations and Marulan Common Infrastructure Project - MOD 1
MP07-0174, 0175, 0176.

This contributes towards global warming which is **the most** important issue of our time and the future of our children. It is well documented by science, world-wide.

Emitting carbon dioxide into the atmosphere, increasing greenhouse gas emissions, contaminating both ground water, the air, along with the destruction of local wildlife. The fires create enough destruction in our country and this simply compounds attacking our fragile environment. Enough!!
