Subject: Marulan Gas Fired Power Station

13 th November 2019

Marulan Gas Fired Power Stations and Marulan Common Infrastructure Projects
Marulan Power Station MOD 1- Lapse Date Extension
Application Number MP07_0174-Mod-1
Local Government Areas Goulburn Mulwaree
Submission (SUB-5109)

Our names are Jacqueline and Peter Upcroft of 80 Dairy Rd, Brayton/Marulan, NSW

We do give our permission for publication of our details

To the Director - Resource Assessments
Department of Planning, Industry and Environment
Sydney, NSW

Dear Sir

We do not support the proposed time extension for the Marulan Gas Fired Power Stations and Marulan Common Infrastructure Project as we are fundamentally opposed to a thermal power plant being constructed and operated. We believe that Australia should not be focusing on thermal power stations for all of the obvious reasons of global warming and pollution of the atmosphere. We enjoy the remoteness of our property that we purchased nearly 50 years ago. We believe that the proposed power plant will destroy all of the serenity of our rural retreat with its precious haven for wombats, wallabies, rare bird life, etc and the increased noise and dust pollution will discourage sensitive bird breeding in our area. The local wildlife will be severely at risk due to increased traffic and activity in our immediate area during construction and operation of the proposed power plant. In addition the vulnerable catchment for Sydney's Warragamba dam is at risk of pollution during the building stage of the power plant. We sincerely hope this project will not proceed.

We declare we do not have any reportable political donations.

Yours sincerely,

Jacky and Peter Upcroft
