- ☒ Proposal doesn't give adequate detail of the proximity to township
- ☒ Changing climatic conditions for the township and surrounds
- ☒ Bushfire Risk
- ☒ Insurance issues
- ☒ Traffic management
- ☒ Work hours disturbing the tranquillity

Additional Comments: I have lived in this area over 30 years. The Greater Hume Shire is a high producing farming area & even in drought - holding its own. Properties were settled over 150 years ago. I strongly object to overseas companies taking over land. There are many unanswered questions to think that good arable land could be mined is not acceptable. Why are there so many rights chosen in the Greater Hume Shire?
X I have made no political donations. Most farmers have solar power. No one is not against solar.

Signed:

Ph Graham
This area's womenfolk are strong members of the Country Women's Association of NSW & have approached the CEO & Male President to further our cause.
