Hi ,Paul freeman my name is Adam john glew i live in Stratford village for 14 years at 9 anne street and i run a small bussiness in Gloucester . Could you please show some compassion to us residents as 24 hour mining in our town will increase tentions between neibours as depression and anxiety will increase and could cost lives . i suffer with this as well as others .the noise modelling / guessing that your acessors have done have no concept of how it will destroy stratford villagers lives. If minig goes 24 houirs I feel that all houses in Stratford must be purchased by the mines owners and ethier rented back out with new or same tennents so it is up to them to live there or land oweners to be stuck with a unsellable home.I,ve now had my small want now its time for you to grow some nads and stand up for my fellow neighbour.

YOURS SINCERELY
ADAM GLEW
