---

Hi Ingrid,

The height of Sydney Airport's Protected Airspace (OLS) over the site is 78m AHD.

The height of the proposed development is 108m AHD.

The proposed development would therefore be approx. 30m through the OLS and considered to be a controlled activity.

Under the **Airports (Protection of Airspace) Regulations 1996** proposed controlled activities must be referred to the Federal Department of Infrastructure, Regional Development & Cities for a determination.

Regards

Peter Bleasdale  
Manager, Airfield Spatial & Technical Planning
