Dear Scott,

Ivanhoe Estate – Estimate of Capital Investment Value (Master Plan)

Altus Group has been requested by Frasers Property to verify the likely Capital Investment Value for the **complete precinct works** relating to the Ivanhoe Estate at Macquarie Park for the current Master Plan.

The Capital Investment Value has been calculated in accordance with the definition contained in the State Environmental Planning Policy Amendment (Capital Investment Value) 2010 stated as:

Capital Investment Value of a development or project includes all costs necessary to establish and operate the project, including the design and construction of buildings, structures, associated infrastructure and fixed or mobile plant and equipment, other than the following costs:

- a) Amounts payable, or the cost of land dedicated or any other benefit provided, under a condition imposed under Division 6 or 6A or Part 4 of the Environmental Planning and Assessment Act or a planning agreement under that Division
- b) Costs relating to any part of the development or project that is the subject of a separate development consent or project approval
- c) Land costs (including any costs of marketing and selling land)
- d) GST (as defined by A New Tax System (Goods and Services Tax) Act 1999 of the Commonwealth).

Based on the above definition we wish to confirm our estimated Capital Investment Value (CIV) for this project to be **\$1,762,749,000** excluding GST.
