re Roseville College
New Sport & Wellbeing Centre

Dear Sir

I write to give my whole hearted support to the above application

The proposal is well designed. It has minimal impact on the streetscape. The design is sensitive to the immediate surroundings

The parking is adequate.

Noise during construction is a spurious objection. On that basis nothing would ever get built.

Roseville College is a top quality educational facility, and to maintain such a standing needs to change and adapt.

Please approve this proposal and ignore Ku-ring-gai Council's dullard resistance to quality change.

Yours faithfully
