Dear Mandana,

Jemena Submission – SSI 9837 – Newcastle Power Station

Jemena Gas Networks (NSW) Ltd (**JGN**) appreciates the opportunity to review and submit a response to the Environmental Impact Statement (**EIS**) for the proposed Newcastle power station (**NPS**) involving construction and operation of a 250 megawatt gas fired power station and ancillary infrastructure.

JGN owns and operates the NSW gas network that supplies gas to AGL's existing pipeline PL42 and Newcastle Gas Storage Facility which is supplied via the Hexham delivery point.

JGN has been working with AGL to review possible gas supply options available to supply the NPS from the JGN network.

JGN has no comments in relation to EIS.

If you have any queries, please do not hesitate to contact the undersigned.

Kind Regards

Brad Gee
