Re: NO TO THE INTERMODAL

Dear Director,

I am writing this submission to make my point of view, as I am unable to go to your information nights we have so many of these meetings I am not very interested in being told this is a good project, regardless whether we as the community you are still going ahead whether the community could "no", as a commuter on these roads and as a driver there is too many trucks long big D-Double's etc using Newbridge Road & Maresbank Ave these arterial roads are going to impact on our roads, there is no room for the intermodal to be considered with these points

1. pollution ✓
2. noise ✓
3. Traffic congestion ✓✓

This is the bone of contention the traffic congestion is going to be one of the big issues of this, as a driver the congestion are going to be terrible if you drive these roads & stuck in traffic that my main submission to you is that we don't need an 'intermodal', we have our own opinion after time after time but I need

nothing about what MIC executive
is doing but does he really know the
impact on the town Road it is
giving to make it is giving create
congestion on the main Road in
out all of CBD Liverpool & Surrounding
areas.

It doesn't matter whether you have
a public exhibition it is not giving to change
my mind I think you have to rethink
before council lets you do anything,
As the community we don't recommend the
Proposal in fact we don't want it
how many submissions etc do you
want before our voice is heard
you have quite a lot of people of
community varying No to the Intimodal
so what does it take if the to stop.

yours sincerely

P.S Mayor Mansour of Liverpool

mrs C Jule

doesn't want it if his community either!

so there is the submission.
