Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because as a resident living in close proximity to the proposed site the impact of noise and more importantly dust and pollution WILL substantially increase. Respiratory problems in our area are very high and the dust from the M5 as well as from Woollongong (which dump in our basin) have created a much higher than average accumulation of dust and pollution in our home (you are welcome to examine our roof and interior at any time), in fact it is ridiculous and this proposal is just as ridiculous as it DOES NOT take into account the close proximity of well established neighbourhoods. I could recommend the Ingelburn Industrial area as a viable alternative.

Yours sincerely,
Greg Whitehead
Wattle Grove, New South Wales, 2173, Australia
