Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...
of the lack of concern for the people in and around this area. the road system is already a joke and with the proposed number of trucks added on the roads it will become gridlocked and pollution will be a major concern what with everything else being dumped out in this area. i think a major rethink of this proposal should be undertaken and maybe consider putting some of these terminals on the north shore or in regional areas where employment is needed and less traffic on the road

Yours sincerely,
patricia johnson
