Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because I did not move to this area to be inundated with all these add ons that we seem to be dumped with. No matter how much we object our voices are never heard or considered. I would like to know how many people who are creating all these add ons live in this vicinity. I bet not. So sad that in my retirement years my life will not be peaceful but continually being subjected to constant noise. Will the government sound proof my house as they side around the Sydney airport. Think this should be considered. I am concerned about what risks of serious health problems that may result in these add ons. Get back to me and you can discuss all the points I mentioned or are you faceless when it come to discussion.

Yours sincerely,
Linda Reid
