**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because the amount dust, diesel and noise pollution that will be brought into the area will be detrimental to everyone's health.

During the recent renovations at the Holsworthy Army Base, our backyards, car and house were continually covered in dust from the movement of dirt during the excavation. We would clean our backyard surfaces daily. Even the demolition and pre-construction activities will increase the dust, diesel and noise pollution even more.

We purchased over 20 years ago, with the view of living out our lives in the beautiful and quiet little suburb.

You will ruin our lives. Put this your backyards!

It will be great for your health and won't affect you or children.

Come on do it!

- Bring in 1.6 Million m3 of dirt = 640 Olympic Swimming Pools.
- Requires 745 trucks or 1490 truck movements everyday.
- Operating 16hrs Mon - Fri and 13hrs on Saturdays.
- 6 days a week for 6 to 9 months.

Yours sincerely,

Kelly Harris
