**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because this project has betrayed our faith and trust to this government to protect the environment we are living in and the future quality of water and air of this area and this country. This area is a residential area, not industrial area. Our government is continuously making short-sighted decision on the base of making short term economic profit without considering long term impact of damaging the vital environment we and our children all depend on living in. It is disgraceful and shameful. This is a criminal act which will be judged by history.

Also traffic in this area is already a nightmare. It takes us 2-2.5hrs to travel to city to work on M5 most of the days. This area has no capacity to accommodate any more traffic.

Yours sincerely,  
Fang Fang Anderson
