Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to this early works modification on the basis that new applications have not been lodged. It is unfair that changes have been made without a development application.

This is unjust to the people of the south west and also to future generations considering the environmental impacts this development could have on the Georges River. These changes need to be examined with caution.

Air and water pollution have ruined some great cities, does Sydney want to struggle with this issue, instead of searching for a better solution?

This email was sent via do^gooder, a campaign platform that enables people to contact you regarding issues they care about. The FROM field of this email is campaigns@good.do however the email was sent by Caroline Vassarotti who provided this email address: cfvassa@yahoo.com.au
