**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because..of a number of reasons not limited to the following:

Excessive traffic congestion, inevitably wrecking the Georges River and River front land which could be better used for other purposes, health risks to the local population including young children & the elderly, decrease in socio-economic values of the residents & the community overall which will also result in a decrease in property values. Western Sydney is not a dumping ground for such industries!

Yours sincerely,
