**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...  
of the toxic environment that it will create which will cause health concerns to childrens, all people as well as to the wild life ecosystem. This will make the area more prone to the flooding as it is already prone to flooding as it is. This project will only benefit MICL+SIMTA at the expense of the surrounding community. This kind of project should be placed at the other skirts of Sydney far away from communities.

Yours sincerely,  
alex barquin
