**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

I feel it is an act of total contempt for the people who live in the area around this proposed project. To grant more concessions to this Intermodal company to further impact on people's health and quality of life on top of allowing this project to proceed in the first place is too much. I can only believe that the proponents supporting this atrocity and the government departments allowing it to proceed live far away from the suburbs where they intend to inflict this project.

Please consider people's lives before rubber stamping this monstrous modification

Yours sincerely,

Ian Irwin
