Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because we are a booming residential area and we don't deserve this industrial level pollution and hundreds of trucks every hour in and around Liverpool.

People of South-west deserve a fair go and can't be treated as a dumping ground for all of Sydney. I mean we have kids growing up in this area as well. Has there any study been done as to what the impact of all this extra pollution will be on the health of our kids?

Yours sincerely,
