Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

Approval to this Concept is Conditional. We don't know that these companies will want to proceed if they have to spend money in these conditions. It is further not fair to surrounding residents some of whom doubt that they will proceed once they realise that the total cost of the project will not make the project viable. It is highly concerning that they could proceed even in any way without knowing if they will fulfilling any of their obligations, i particular the construction of the bridge which is a vital link.

Before any work to the actual site, this bridge must be constructed first.

If this modification is approved it will cause surrounding hardships in noise, pollution and other health and breathing problems. Think about people for once please.

Yours sincerely,
Inna Ovelar
Mount Pritchard, New South Wales, 2170, Australia
