**To:** DPE CSE Information Planning Mailbox  
**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

- Traffic congestion and associated impacts on amenity due to additional vehicles on the network.
- Noise and vibration impacts associated with site construction and operation, as well as vehicle movements beyond the site.
- Air quality impacts associated primarily with vehicle movements beyond the site, as well as site construction and operation.
- Hazard and risk both within the site and beyond the site boundary associated with the transport network.
- Human health impacts resulting from a reduced level of amenity within a heavily populated area.

Yours sincerely,  
May Jamieson  
Wattle Grove, New South Wales, 2173, Australia
