**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

How is that the developer can over look the need to bring in 1.6 Million m3 of dirt which requires 745 trucks or 1490 truck movements everyday.

Are they inept, deceptive or are they attempting to bring forward the construction phase of this project.

Also the conceptual consent is out of date for over 12 months and the rules have changed regarding this type of project.

Yours sincerely,
