**Subject:** SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because I live in Wattle Grove and will be directly affected. I have young children that already have respiratory issues. With the increase of trucks in and out of Moorebank the air quality will only deteriorate exponentially which translates into my children being sicker which means time off work which I cannot afford specially with a mortgage to pay. It is extremely depressing to know that the M5, which already has its congestion problems, will be further affected due to the drastic increase of trucks due to the Intermodal. When we purchased our property around 10 years ago we feel in love with the area because of its family orientated neighbourhood, calm surroundings and calm industrial areas. We were okay with the army being so close by but never in our wildest dreams thought that such a horrible industrial area would substitute the calm army schools and distribution depots. Please do not allow this Intermodal to come to our lovely area and push us into moving.

Yours sincerely,  
Teresa Berenguer
