Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because it is not the right area for such a massive terminal. The closely surrounding areas are families in residential areas, who will bear the brunt of pollution, noise, traffic in an area already plagued with traffic congestion and a serious lack of resources for people and facilities already in the area. It will affect our way of life, our leisure areas and pollute the places we go to enjoy with our families (including our own backyards). With more trucks comes more danger for residents moving around in our area. We do not want a freight terminal in our backyard to destroy our quiet residential area and family lives!

Yours sincerely,
Kelly Menendez
