Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and principle due to the following reasons:

- 1) it will directly and indirectly affect the whole of our community.
- 2) dramatic increase in noise due to heavy traffic - particularly trucks and other vehicles of commercial nature. We are a quiet family community and have enjoyed being so for over 20 years.
- 3) influx of commercial vehicles directly concludes to both increase of traffic and direct like hood of a then dangerous environment on the roads - as previously stated we are a family community, this is highly concerning to everyone involved.
- 4) high to almost certain environmental endangerments - both in natural surrounding habitat and air pollution. This will certainly affect the health and general enjoyment of every day life of all surrounding areas inclusive of serious endangerment to all flora and fauna surrounding.

These are just some of our concerns and I assure you we have many more. We request that this terminal be relocation to a more suitable enviroment that is better fitting to its needs.

Yours sincerely,
Makuleta Pouvalu
