Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

At the moment I live in the Georges fair estate with my husband and 5 children. My children have to walk up brick makers drive to get to school and there is so many trucks going up and down the road. My house is always dusty and it is very noisy.

Why would the government allow our beautiful area which is where a lot of families are bringing up their children be the area for the Moorebank container terminal? I really can't understand the area is way too small for this to be allowed. And also the concrete recycling plant is planned for this area too. The area is already packed up in the morning coz of the traffic. So many trucks each day and you want to bring more trucks to the area with the Moorebank freight and the recycling plant. This is absurd, my heart is breaking for my family and all the other families that are working so hard to bring up their children in Moorebank. Please I beg you not to let this happen it can't happen, there will be many accidents and so much traffic. My children have asthma and allergies and this will only make their symptoms worse. Send the container terminal to another area. This area is not suitable and I will fight to stop this for my children

Yours sincerely,
Lisa Ah-chong
Moorebank, New South Wales, 2170, Australia
