Subject: SIMTA MODIFICATION – SSD 5066 [Early Works]

I object to these modifications, on merit and on principle because...

There is already excessive amount of trucks in and around the area causing congestion the development of the intermodal will just increase the congestion. Anzac Rd is marked with a sign saying no trucks over a certain tonne and yet we have massive semis driving down. There is already enough congestion with the factory complex they have built off Anzac Rd the otherside of the Fire Station. I travel the M5 to get to work and the trucks are out of control around this area already. Wattle Grove/Hosslworthy area is already an over populated area and the infrastructure cannot cope as it is.

Do not add more congestion and pollution into our already over populated area.

Yours sincerely,
Nicole Brewer
Hosslworthy, New South Wales, 2173, Australia
