Leanne

For the attention of Necola Chisholm, Roads and Maritime has reviewed the proposed modification to the Concept Plan and Project Approval for Cassuarina Town Centre. There is a reduction in intensification in proposed uses, this will translate in reduced traffic demand. The traffic generation rates are within the limits calculated previously for external road connections. Roads and Maritime does not have any issues from a traffic efficiency or road safety point of view with the proposed modification of the town centre concept at Cassuarina.

Thanks Michael Baldwin
Development Assessment Officer.
