Subject: 2019-569 - Modification Application for Yarrabee Solar Farm (SSD-9237-Mod-1)

Hi Javier,

RE: 2019-569 - Modification Application for Yarrabee Solar Farm (SSD-9237-Mod-1)

Thank you for referring the abovementioned modification to TransGrid for review.

TransGrid has reviewed this modification application and see no need to further assess as the changes do not introduce *additional* impacts within the TL63 easement.

Per the modification report, the changes are as follows;

- *Replacing the previously approved 35 MW/70 MWh Battery Energy Storage System (AC-coupled BESS) that was to be located in a single point location, with individual DC:DC connected BESS (DC-coupled BESS) modules distributed throughout the solar array, each having a 2.5 MWh capacity.*
- *Changes to site access for construction and operational traffic potentially resulting in Back Morundah Road not being required for access to the site.*
- *Addition of five part lots and one full lot inadvertently not included within the original description of the Project's titling to ensure consistency with the approved written document and approved drawings.*

All changes appear to be within the existing Yarrabee Solar Project site.

The work is acceptable to proceed with no concerns from TransGrid.

If you have any questions, please do not hesitate to contact our team.

Kind regards,

Lauren Player

Subject: 2019-569 - Modification Application for Yarrabee Solar Farm (SSD-9237-Mod-1)

Dear Skye

We previously sent an email seeking TransGrid comments on the proposed modification of the Yarrabee solar farm. Whilst agency comments were due yesterday, the public exhibition period ends tomorrow Wednesday 18 December 2019. Can you please let me know if TransGrid will be providing comments and the expected date for this advice to be received.

Thanks and regards,

Javier

Dear Javier,

RE: 2019-569 - Modification Application for Yarrabee Solar Farm (SSD-9237-Mod-1)

Thank you for notifying TransGrid of this proposed Solar Farm.

We're currently reviewing this proposal and will be in contact with *The Department of Planning* shortly to provide comment.

For your reference, please find attached a copy of *TransGrid's Easement Guidelines*. Please note these guidelines are **not** an exhaustive list and should there be any uncertainty further consultation with TransGrid is required.

If you have any questions in the interim, please do not hesitate to contact our *Easement and Development Team* on (02) 9620 0515 or alternatively via email – Easements&Development@Transgrid.com.au

Kind regards,

Subject: Modification Application for Yarrabee Solar Farm (SSD-9237-Mod-1)

Good Afternoon,

The Department of Planning and Environment has received a Modification Application and Report for the MOD 1 - Yarrabee Battery Storage and Transport Route (SSD-9237).

The Modification Report will be publicly exhibited from 4 December 2019 to 18 December 2019.

The Modification Report is available here: <https://www.planningportal.nsw.gov.au/major-projects/project/25641>

The Department invites you to comment on the modification, including advice on recommended conditions by the 16 December 2019.

If you have any enquiries, please contact Javier Canon at Javier.Canon@planning.nsw.gov.au.
