Ref.: Northern Coal Logistics Project

Dear Sir

I would like to show our companies support for the Centennial Coal Northern Coal Services – Logistics Project. Centennial coal is one of our companies largest customers and has been for many years, without their ongoing support its doubtful our and many other businesses in the area would have survived or even opened without their support and the employment Centennial have offered over many years. It's almost certain that nearly all households have some alignment with the Centennial group. It is also likely that many other local businesses and institutions rely on them as well.

Centennial over many years have proven themselves to be very diligent in preserving the environment and the local community in supporting many causes and sporting institutions, they have always supported our local youth programs with the many apprentices that have plied their trades to support the mining industry and also many other industries within the local community.

We feel very strongly that the government & community at large should stay very supportive of Centennial and its endeavors as it is striving to prosper and compete in probably the toughest economic environment we have ever experienced.

Yours sincerely,

A handwritten signature in black ink, appearing to be "Darren Rockley". The signature is written in a cursive, flowing style with a horizontal line crossing through the middle.

Darren Rockley
