

Clyde Waste Transfer Terminal
Application N° DA 205-08-01 MOD 5

PCU070700

Dear Sir/Madam

Regarding the Clyde Waste transfer terminal.
Application N° DA-08-01 MOD 5

I object to the increase to the annual waste input and the other changes because I believe the waste terminal should not have been built in the first place.

I believe a resident action group won the case against its construction and installation in the Land and Environment Court when COLLEX first proposed it. A miniscule minority called politicians overruled the decision and it was built. It is in a residential area and the decision to build it, I believe was unjust. Most residents did not want it

Yours faithfully
