Dear Sir

### **EXHIBITION OF MODIFICATION REQUEST FOR CLYDE WASTE TRANSFER TERMINAL DA 205-08-01 MOD 5**

We act for Mete Holdings Pty Ltd and Bartorilla Enterprises Pty Ltd, the registered proprietors of 8-10 Kendall Street, Granville.

Our clients have received notification of an application by Veolia Environmental Services (Australia) Pty Ltd ("Veolia") to:

- (a) Increase the annual waste input rate from 500,000 tonnes per annum to 600,000 tonnes per annum;
- (b) Change traffic access arrangements via Parramatta Road; and
- (c) Remove the need for a community consultative committee.

We are instructed that the proposed modification is contrary to the public interest for reasons including the following:

- 
1. The 20% increase in annual waste input will increase the putrid emissions emanating from the site. The emissions constitute a nuisance caused by Veolia and effect the use and enjoyment of the neighbouring properties.
  2. The scope of the site is inappropriate to facilitate a 20% increase in the annual waste input rate.
  3. The removal of the need for a community consultative committee demonstrates Veolia's total lack of regard for its neighbours, the community and the public interest and the effect of its operations on the environment and the enjoyment of the surrounding properties.

We are instructed to request that the Department of Planning reject the modification.

Yours faithfully
