Director, Mining Projects
Development Assessment Systems and Approvals
Department of Planning & Infrastructure
GPO Box 39, Sydney NSW 2001

RE: Application No: DA 300-9-2002-i MOD 6

Dear Director,

I Michael Sydlir believe the approval of the extension for Mt Tharley will benefit not only the town of Singleton but the neighboring towns of Singleton but it will keep the town economy booming and Singleton needs the boom as they have a lot of new infrastructure in the works. and having the mining here only helps boost that. Not only will the extension keep myself in a job but it will keep the rest of my fellow employees employed who also have families to provide for. Personally I need this I am wanting and needing this extension to go through as I have never enjoyed a job as much as I enjoy coming to work here I would like to think I could retire here. I have purchased a property in the Singleton area and I'm looking to stay till my times out I have a family to provide for and the extension will only guarantee our future and the limits we can strive for.

Regards,

M. Sydlir
