Howlong  
State Significant Development  
Application Number SSD-8804

Hanson Construction Materials wish to provide a letter of support for the extension of the relating to SSD-8804

As a current customer of the quarry, access to the local aggregate and sand enables Hanson to manufacture and supply premixed concrete into the local communities at cost competitive rates. The distance to market for ready mix concrete raw materials, such as sand and gravel, is a significant cost driver and having resources close to market provides a benefit to the local infrastructure builds. Sand and gravel resources in this area are limited and this key resource will secure local aggregate and sand supply for many years to come.

Regards

A handwritten signature in dark ink, appearing to read "A. Harvey".
