

Objection to Moorebank Intermodal Stage 3

SSD 10431

Erik Rakowski

I formally object to this proposal for a compound worker accommodation, car parking hardstand, road construction, drainage and the importation of 280,000 unconsolidated and 540,000 structural fill, the subdivision and creation of nine allotments for terminal and warehousing purposes. Furthermore, I support the action and advocacy of RAID Moorebank and recommend you seek and heed its counsel.
