Attention

Marcus Jannayohn,

With regard
to the Willow Grove Villa &
St George Terraces on Phillips St
Parramatta they are rare examples
of architectural buildings of the
past and can never be replaced
if demolished & the Parramatta
Power House Project build in its
place - leave the builds as
they stand to show future
generations of the past but surely
they would be heritage. The State
Government can find another
property for the museum. Please
leave these buildings to be
admired by Parramatta residents &
visitors.

yours
sincerely
B. Marriott
