ATTENTION - MARCUS JENNEJOHN.

Dear Mr Jennejohn

Greedy - greedy - greedy - What is it about people who cannot allow anything of historical or moral value to obscure their vision of development & destruction.

Parramatta - the centre of such significance to our nation is being raped & pillaged to a heart breaking degree.

We travel overseas to see areas of historical importance & yet we allow the wanton destruction of our own past - for what? - money - what will Parramatta Council gain from this vandalism.

These areas should be cherished - we are privileged to live within an area containing such gems - irreplaceable. Just to walk or drive past them is a reminder of those who have gone before - a feeling rarely enjoyed by those living in other parts of Sydney.

Please leave future generations with something so valuable - to see & touch - to visit the past as a base to advance into the future.

I have been a resident of Parramatta since 1945 - first at Rosehill then Quindas. Who are these outsiders who wish to despoil Australia's heritage - ??

Damn you I say.

Mary Stuart

NB - I have not made any political donations
