Mr John Heathers

3rd July 2020

To Marcus Jennejohn,
Senior Planner
Planning and Assessment,
Dept of Planning
PO Box 5022
Parramatta NSW 2124

Letter of Objection to the Powerhouse Parramatta Project.

I object to the Powerhouse Parramatta Project in its present form and wish that my objections are noted.

The buildings to be demolished i.e. Willow Grove and St Georges Terrace are part of Parramatta's and Sydney's heritage and their demolition is a disgrace and disrespect to our colonial heritage. These buildings have played a part in the social history of Parramatta for well over 100 years.

Assuming the determination of the government to build a new "museum" on the proposed site I urge you to ensure that these two existing buildings be incorporated into the new design. With the amount of general destruction of heritage in Parramatta and surrounding areas I believe it is essential to retain these two buildings.

To date I have made no contribution to any political party and request that you affix my name to the long list of objectors to this proposal.

Yours faithfully,

John Heathers
