RE: Powerhouse Parramatta - Application No. SSD-10416

To whom it may concern

I wish to inform you that I object to the proposed Powerhouse Parramatta location as this site will see demolition of two historic buildings being Willow Grove - St George Terraces.

This location is also on a flood zone area and will be very problematic to any proposed museum because of the risks of the heritage items involved.

However there is a better location nearby called The Historic Female Factory Convict site which will be a better option for it's size compared to the proposed location as mentioned above and as it's more cost effective.

Yours sincerely
